---	--	---------------------------------

This form documents agreement among the parties listed below authorizing classification of the subject unit as rejected, closed-out, or no action and authorizing backfill of the site, if appropriate. Final removal from the NPL of no action or closed-out sites will occur at a future date.

**Description of current waste site condition:**

Because it would be impossible to distinguish this unplanned release from the rest of the contaminated soil in the overall B Tank Farm Underground Radioactive Material posting, it has been consolidated into the larger site (200-E-120).

RECEIVED

JUN 28 2002

EDMC

**Basis for reclassification:**

This site has been consolidated into 200-E-120, Contaminated Soil at 241-B Tank Farm.
